

SecurLogin

Authentication-as-a-Service Platform

—Your Reliable Bank-grade Cloud-based Authentication Solution

Strong Authentication

Reduce risks caused by weak password and the cost of maintenance & equipment

Cloud Services

Easy-used Cloud service and simple deployment

Unified Management

Unified platform for effective & central management

SecurLogin - Strong Authentication

SecurLogin offers real-time Second Factor Authentication (2FA) service on the Cloud to strengthen enterprise user login process. There is no need for enterprises to purchase any equipment. SecurLogin client app is required for some SecurLogin supported authentication methods, so enterprise staff needs to download and install it to support desired authentication methods. i-Sprint's strong authentication solutions are deployed to over 200 banks, and it provides enterprise reliable and leading strong authentications.

- **Strong Authentication Methods**

OTP via SMS or Email

Push Login via Mobile App

OTP Generated by App Built-in Token

Telephone Voice OTP

Biometrics Authentications

- **Smart Authentication (Contextual Authentication) :**

Auto adjusts the authentication level according to multiple factors, e.g. user accounts, locations, time and IP address.

SecurLogin - Unified Management

SecurLogin contains a powerful unified management platform that can support various authentication methods to provide a comprehensive identity authentication solution for enterprise information mobilization.

Various Management Functions - Enterprise Self-service

- Apply unified management and strong authentication for multiple app systems by creating apps in the SecurLogin system
- Data-backup secures enterprise data.
- Enterprise/individual users can manage the 2FA authentication methods of apps by accessing the Cloud service portal.
